April 23, 2019

To FCC agents or to whom it may concern,

I am requesting a waiver for the review of our USAC Form 471 No. 191042159 for the Data Transmission and/or Internet Access for our School for the Funding Year 2019-20. The FRN Line Item # is 1999077291.001. Unfortunately we missed the deadline to file the form 471 prior to the window to be closed on the EPC (E-Rate Productivity Center from USAC). I am the contact agent for our School and the only one who can file this form, but I was out of the country and I didn't realize the deadline date was for all the forms. I filed the form 470 (No. 190029996) prior to the FY2019 Application Window to be closed but I never counted the 28 days I had to wait in order to file the form 471. We have been receiving the Internet Access with the E-Rate discount through USAC for years and now I am very worried about not being able to cover the full cost for the service. Our current enrollment this year 2018-19 is 187 students. I really appreciate if you could grant us the waiver for our Form 471 (#191042159) to be reviewed after the grace period. Our BEN No. is 16049060.

If you need further information or documentation you may contact me at:
